Subject: Hess FOIA Response

Date: Tuesday, February 20, 2018 1:49:25 PM

Dear Mr. Engels and Mr. Cederholm,

Hess has reviewed its submittals that it believes are potentially responsive to the FOIA request

received by EPA, and believes the following two submittals are potentially responsive to the FOIA

request:

- "NSPS Subpart 0000a - 2017 Annual Report" submitted on October 27, 2017, to the Office

of Enforcement, Compliance & Environmental Justice (8ENF-AT), U.S. Environmental Protection Agency Region VIII, 1595 Wynkoop Street, Denver, Colorado 80202; and

- "NSPS Subpart 0000/0000a - Annual Report" submitted on October 26, 2017, to Mr. Bob Hodanbosi, Division of Air Pollution Control, Ohio EPA, 50 West Town Street, Suite 700, Columbus, Ohio 43215.

After reviewing these documents, Hess believes that various portions of these submittals are

covered by the confidential business information, personal information, and geological well

information exemptions to FOIA disclosure (Exemption 4, 6 & 9). Accordingly, Hess requests that

EPA withhold release of the reports pending EPA's further investigation of the applicable FOIA

exemptions. If requested, Hess can provide additional information on those parts of the submittals

that it believes are exempt from FOIA disclosure.

Note that Hess is not aware of any other Hess submittals or documents that are in EPA's possession

that are responsive to the FOIA request. Accordingly, the claims for FOIA exemption set forth above

are limited solely to the documents identified above. Hess does not waive, and expressly reserves, all

rights, privileges and defenses, including any right to assert applicable FOIA exemptions, for any

documents not identified above. If EPA has additional Hess documentation that it believes is

responsive to the FOIA request, Hess requests that EPA share those documents with Hess so that

appropriate FOIA review can be conducted.

Thank you again for your time and consideration in this matter. I look forward to working with you

and providing any additional information you may need.

Kind regards,

Alan
